36 **PUBLIC HEARING**

37
38 **1. CONDITIONAL USE PERMIT 16-03 (CUP 16-03)**
39 **156 West Highland Avenue**
40 **Steve Salisian**
41

42 Assistant Planner Perez delivered the Staff Report.
43

44 Director Gonzalez reminded the Commission that the project shall be considered as a
45 new, not existing project. The new application is for a Conditional Use Permit (CUP 16-
46 03) to allow a one-story, 693-square foot recreation building on the property located at
47 156 W. Highland Avenue. This building was originally constructed as a 1,322-square foot

48 fourth dwelling unit by the applicant without prior building and zoning approvals from the
49 City. The new application modifies the building to conform to building setback
50 requirements and alters the building to be used as an exercise/recreation room for the
51 property. He also directed the attention of the Commission to a revised handout
52 referencing the project summary.

53
54 Commissioner Hutt clarified the scope of the modification of the existing building.
55 Commissioner Desai confirmed that staff has concerns of re-conversion to living space,
56 and the requirement of a covenant to prevent such. Commissioner Desai also indicated
57 that the building elevations should depict both the existing (as built) and proposed
58 elevations.

59
60 Commissioner Hutt requested to include a clause in the covenant that City Code
61 Enforcement has the right of annual inspection. City Attorney Highsmith stated that such
62 statement is a normal inclusion.

63
64 Commissioner Buckles inquired if the project is not approved. Director Gonzalez stated
65 that the applicant would have the right to appeal the project to City Council. If both
66 reviewing bodies denied the project, the City will take action requiring the building to be
67 demolished.

68 Commission Pevsner inquired about the parking requirement. Director Gonzalez stated
69 that additional parking is not required for a recreation building.

70
71 **Public Comment**

72
73 Brent Cheney
74 Attorney for Applicant

75
76 Mr. Cheney thanked Staff and the Commission for their time. He provided a history and
77 detail on the project and subject property.

78
79 The Commission clarified the ownership history, landscape options and water sources
80 and usage.

81
82 Barbara Leigh Kline
83 Ms. Kline supported the requirement of the covenant.

84
85 **Discussion**

86
87 Commissioner Pevsner stated he is familiar with the project and gave some history on
88 the project. He stated that he will defer to the rest of the Commission on the decision.

89
90 Commissioner Buckles felt that the project could be approved as submitted.

91
92 Commissioner Hinton feels that the revised submission is the same building with a
93 different name. She stated that she would prefer a single story with an unfinished attic.

Commissioner Hinton requested that all plumbing be removed except for the ground floor bathroom. She also requested that the bathroom be reconfigured such that a shower could not be added. She also stated that she would be in favor of a covenant with annual inspections.

Commissioner Desai pointed out that a new project would have to comply with setback requirements and required distances between buildings. Director Gonzalez stated that the fire marshal had previously reviewed the project and will continue to address fire separation requirements during the plan check process.

Commissioner Hutt feels that this revision is a step in the right direction. He stated that he is in favor of a covenant, with an added condition of approval for a walkway between units to be installed and made of permeable pavers.

Commissioner Desai stated that he had some concerns due to the history of the project. He felt that nothing in the design prevents the conversion back to a dwelling unit. He stated that he would like to see the powder room relocated to the northwest corner of the building to prevent installation of a shower. Commissioner Desai also stated that he would be in favor of removal of all plumbing except for service to the first floor bathroom. He also stated that the proposed roofline is a defacto second story, even with the pull down ladder.

Commissioner Buckles stated that he would be amenable to removal of the second story floor. Commissioner Desai agreed that he would be amenable to a vaulted single story space.

Mr. Ferroq
Structural Engineer

Mr. Ferroq stated that removal of the floor of the second story would be unsafe.

Commissioner Desai suggested conversion to a balloon frame.

Mr. Ferroq stated that would be doable, but expensive.

The Commission and Mr. Ferroq discussed the feasibility of removal of the floor of the attic.

The Commission provided direction and conceptual ideas to the applicant.

Action: Commissioner Hutt moved to Continue this item to the October 20, 2016 Planning Commission meeting. Commissioner Pevsner seconded. Motion carried unanimously.

DISCUSSION REGARDING REGULATION OF GROUP LIVING FACILITIES

Director Gonzalez delivered the Staff Report.

The Commission reviewed Chapter 17.08 – “Definitions”, as well as Chapter 17.60.030 – “Conditional Use Permits.”

The Commission directed staff to return at the September 15, 2016 meeting with the cited revisions and would review Exhibit “E” Chapter 17.94 – Group Living Facility Standards.

ORAL COMMUNICATION

Audience Comments

Barbara Leigh Kline
Ms. Kline thanked the Commission and staff for their hard work.

Planning Commission

None.

Planning & Community Preservation

Director Gonzalez stated that the next Planning Commission meeting would be held on September 15, 2016.

Adjournment

Acting Chair Desai adjourned the Planning Commission meeting at 9:33 pm

Secretary to the Planning Commission
Vincent Gonzalez, Director of Planning & Community Preservation
